**Vendor:** Oracle

**Exam Code:** 1Z0-430

**Exam Name:** Oracle WebCenter Portal 11.1.1.8  
Essentials

**Version:** Demo

**QUESTION 1**

In which file should customization classes be specified in the cust-config section (under mds- config)?

- A. web.xml
- B. weblogic.xml
- C. adf-config.xml
- D. adfm.xml

**Correct Answer: C**

**QUESTION 2**

Which two scoped managed beans must be Serializable in order to work without errors in a highly available application?

- A. Session scope
- B. Backing bean scope
- C. View scope
- D. Transient scope

**Correct Answer: BC**

**QUESTION 3**

The DesignWebCenterSpaces application contains a file called config.properties. What is the purpose of this file?

- A. To enable a connection between JDeveloper and the Portal server. This will be used to upload and download assets directly from JDeveloper.
- B. It allows the developer to configure which asset types can be created or edited with this application.
- C. It is used to store classpath and library information, and the path to executables. That way, a local Portal instance can be started from JDeveloper.
- D. It is an internally used file. Developers should not have to manually configure this file, except when required by Oracle to do so.

**Correct Answer: A**

**QUESTION 4**

While creating a Portal Template, you add a content facet and a panelCustomizable component into the template.

What impact does this have during run time?

- A. The content facet is required to hold content, and panelCustomizable is used to allow runtime editing.
- B. The template is missing the pageCustomizable component, which allows runtime editing.
- C. The content facet is optional, whereas panelCustomizable must be added to the template to allow editing.
- D. The panelCustomizable component is not required for editing, but only to allow drag and drop. This component is mandatory.

**Correct Answer: D**

**QUESTION 5**

WebCenter Portal supports any mail server with IMAP4 and SMTP protocol support. Which server distribution, however, has specific integration support within WebCenter Portal?

- A. IBM Lotus Notes
- B. MS Exchange
- C. UNIX Mail Server

- D. Google Mail Server
- E. Oracle Beehive

**Correct Answer:** E

#### **QUESTION 6**

Which option correctly describes the relationship between WebCenter Portal and ADF?

- A. ADF is the development framework in which WebCenter Portal is based, and also the framework recommended for custom development (of portlets, taskflows, and templates).
- B. ADF is the development framework recommended for taskflow development. WebCenter Portal has an ADF integration gateway to support ADF taskflows.
- C. ADF is the integration layer for WebCenter Portal. All communication with external applications is done through ADF standards.
- D. ADF is an architectural concept for developing web applications using an MVC (model-view- controller) framework. ADF has a set of models that can be used to speed up development time.

**Correct Answer:** C

#### **QUESTION 7**

Which three statements are true in the context of WebCenter Portal customizations?

- A. WebCenter Portal Administrator changes the logo of the WebCenter Portal. This is an application customization.
- B. A moderator of a specific portal grants rights to create, view, and delete discussions. This is a user customization.
- C. A user changes the attributes of the task flow, to minimize it by default. This is a user customization.
- D. An application specialist edits a portal to hide a task flow. This is an application customization.

**Correct Answer:** ABC

#### **QUESTION 8**

On a normally well-performing environment, you are experiencing unexpected slow response times, or no server response, for some page requests in WebCenter Portal? You are attempting to debug this issue starting at WLS.

Which two diagnostic steps should you take to resolve this issue?

- A. Submit more requests to the server to see if it responds.
- B. Check the WLS admin console to see the status of the managed server.
- C. Check the diagnostic log file for the managed server to see if there are STUCK threads.
- D. Perform a cold restart of the server.

**Correct Answer:** CD

#### **QUESTION 9**

Which is true for portals created in the WebCenter Portal 11.1.1.8 version?

- A. A new portal created in 11.1.1.8.0 references a global default navigation model.
- B. A new portal created in 11.1.1.8.0 contains a local navigation model.
- C. A new portal created in 11.1.1.8.0 contains a local read-only navigation model.
- D. A new portal created in 11.1.1.8.0 does not contain any navigation model.

**Correct Answer:** B

#### **QUESTION 10**

Which two options are required when configuring Portal in a clustered environment?

- A. ensuring each Portal server has its own content server

- B. enforcing Sticky Sessions on the Load Balancer, which handles the requests for the Portal application
- C. hosting all portal instances on the same server
- D. configuring session replication between the Portal cluster nodes

**Correct Answer:** AC

**QUESTION 11**

Which statement is not true?

- A. Responsive Design allows a page to change content visibility and or layout in the browser if the browser is resized.
- B. A page using Responsive Design is refreshed in the portal server when the size of the browser is changed.
- C. Responsive Design includes adding server-side logic to conditionally display areas on a page.
- D. Responsive Design allows pages to target more than one device size or orientation.

**Correct Answer:** D

**QUESTION 12**

Which three steps are needed for using custom task flows with business components in multiple portals?

- A. Create the task flow in each portal.
- B. Create the task flow once in JDeveloper.
- C. Deploy it once as a portal shared library to WebCenter Portal server.
- D. Import the task flow in each portal.
- E. Add the task flow to the desired resource catalogs.
- F. Download and update portal MDS (metadata data services) customizations for each portal.

**Correct Answer:** BDE

**QUESTION 13**

Which two WebCenter Content components must be enabled for the WebCenter Portal content integration?

- A. Site Studio (for uploading files)
- B. WebCenterConfigure
- C. Folders\_G and FrameworkFolders
- D. Folders\_G or FrameworkFolders
- E. InBound Refinery

**Correct Answer:** AC

**QUESTION 14**

What three configurations have to be done to ensure that a portal can correctly display content from WebCenter Content server?

- A. OHS (Oracle HTTP Server) configured to front end both WebCenter Portal and WebCenter Content
- B. WebCenter Portal and Content running on the same server
- C. an SSO (Single Sign-On) solution configured between WebCenter Portal and WebCenter Content
- D. web context root set on the content repository connection
- E. WebCenter Portal and Content configured in the same WebLogic server domain

**Correct Answer:** BCE

**QUESTION 15**

In WebCenter Portal server, how do you definitively disable the ability to create a portal?

- A. Edit your page template and remove the "Create Portal" links.
- B. This feature cannot be disabled because it is an integral part of WebCenter Portal.
- C. Revoke the Create Portal application permission from authenticated users.
- D. You can disable the portal creation feature by using a system parameter.

**Correct Answer: C**

#### **QUESTION 16**

Your customer has configured Oracle Secure Enterprise Search (SES) with Oracle WebCenter Portal. The customer is complaining about the search results not including secured resources. The WebCenter Diagnostic log file indicates the below error:

Received status "failed" during proxy login with application entity "weblogic" to Oracle SES at http://host:port/search/query/OracleSearch, as search user "vicki". Defaulting to public. Which three actions are necessary to resolve the issue?

- A. Confirm that Oracle SES is configured with an identity management system to validate and authenticate users.
- B. Confirm that WebCenter Portal and Oracle SES use different identity management systems (Active Directory or Oracle Internet Directory).
- C. All repositories (such as WebCenter Portal, WebCenter Content Server, and Oracle WebCenter Portal Discussions Server) must share the same user base as Oracle SES.
- D. Oracle SES must have a trusted entity for allowing WebCenter Portal end users to be securely propagated at search time.

**Correct Answer: BCD**

#### **QUESTION 17**

Your client is developing page templates and pages for their portal using primarily Portal Builder. During the process of building this Portal, the client uses Portal Builder and JDeveloper. Identify the initial step required to perform this round-trip development.

- A. Choose the "Save Portal" option in the Portal Administration page.
- B. Export the WebCenter Portal's database schema.
- C. Choose "Export" from the portal assets page in the Portal Builder page and save the portal asset to an archive.
- D. Connect JDeveloper to the Portal server and edit the asset online.

**Correct Answer: B**

#### **QUESTION 18**

As the moderator of a portal, you want to delegate all management to another user except the ability to manage membership.

How do you accomplish this?

- A. Grant the user the "Manage All" permission on the portal.
- B. Grant the user the "Manage Configuration" permission on the portal.
- C. There can be only one moderator of a portal.
- D. This is not a supported feature in WebCenter Portal.

**Correct Answer: C**

#### **QUESTION 19**

Which role can make a portal available for self-subscription?

- A. No roles can do this; it is not a feature.
- B. The Moderator role can do this.
- C. All seeded roles have this capability, but custom roles do not have it.
- D. The Administrator can enable any role to do this.
