Vendor: Microsoft

Exam Code: 62-193

Exam Name: Technology Literacy for Educators

Q&As: Demo

QUESTION 1

You have to recommend a solution to help the students solve their problem regarding the historical sources.

The problem must be solved as quickly as possible.

What should you recommend?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. Modify the language settings on the students' desktop or laptop computers.
- B. Email the source text to a language teacher at the school.
- C. Use an Internet-based translation tool.
- D. Use a social networking site to connect with students in other countries and upload the text to the social networking site.

Correct Answer: C

QUESTION 2

You teach a class of 20 students. Your classroom contains six computers.

You run an activity that is carried out mostly on paper.

Before the end of the activity, the students will require access to the computers.

Which lesson structure should provide the best learning experience for the students?

- A. Create several different activities that require the computers at different stages during the lesson.
- B. Execute the computer-based portion of the activity as a class demonstration.
- C. Modify the tasks of the lesson so that only some of the students require access to the computers.
- D. Have all of the students perform the same activity and instruct the students to take turns using the computers.

Correct Answer: D

QUESTION 3

What is the primary benefit of increasing the use of ICT resources during the history lessons?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. The students will have access to a greater range of learning resources.
- B. The students will more easily and quickly submit their assignments.
- C. The students will stay on task throughout the lessons.
- D. The students will deliver assignments that are clearer and more presentable.

Correct Answer: A

QUESTION 4

As an extension activity to the planned learning activity, you ask some of the students to contact external experts to gather additional information about the historical events.

You want to ensure that the students use an appropriate means of communication when they contact the experts.

What should you advise the students to use?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. their personal mobile phone

- B. an anonymous online forum
- C. a generic email account of the school
- D. their social network account

Correct Answer: C

QUESTION 5

You are a teacher at a secondary school. You work closely with the school administration.

A group of parents questions the large sum of money that the school invests in Information and Communication Technology (ICT) resources.

You are requested to prepare a response on behalf of the school.

On which argument will you base your response?

- A. Modern economies increasingly require a workforce that has good typing skills, so the school must try to incorporate computers into all its activities.
- B. Modern economies are increasingly based on knowledge and information, so students must learn the skills required to handle information.
- C. The business sector in modern economies increasingly expects schools to produce students who are qualified in financial knowledge.
- D. Modern economies increasingly depend on the growth of the computer manufacturing industry, an economic sector that schools must support.

Correct Answer: B

QUESTION 6

You plan to lead a class discussion about the persuasive writing examples that the students bring in and to display the examples to the entire class.

Which two ICT resources should you use to achieve this task? (Each correct answer presents part of the solution. Choose two.)

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. a flatbed scanner
- B. a data projector
- C. a monochrome laser printer
- D. a digital camera

Correct Answer: AB

QUESTION 7

You want to address the ICT Competency Framework for Teachers (ICT-CFT) policy goals by using the school's limited ICT resources.

What should you do?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. Ask the students to use their computers at home.
- B. Have the students work in collaborative groups.
- C. Ask the students to use their mobile devices.
- D. Have the more confident students use the computers while the other students observe them.

Correct Answer: B

QUESTION 8

In addition to learning about symmetry, how else should the students benefit from using ICT during the second mathematics lesson?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. ICT will teach them data entry skills.
- B. ICT will teach them computer programming skills.
- C. ICT will help them develop presentation skills.
- D. ICT will help them develop collaboration skills.

Correct Answer: D

QUESTION 9

You teach political science to a class of 20 students. The students are 17 years old. Your school has a computer lab that has access to the Internet.

Your government has an election.

You create a lesson that requires the students to spend the entire day of the election analyzing the election results as they are announced.

You reserve the computer lab for the activity.

You want to ensure that the students can continuously record the election results. The solution must also ensure that the students see the changes to the political map as the results come in.

What should you do?

- A. Have the students input the election results to a spreadsheet application and create charts to present the results.
- B. Have the students use a word processing application to create a table that presents the election results.
- C. Have the students use a spreadsheet application to build a model presenting the election results.
- D. Have the students use a spreadsheet application to import charts from the political parties' Web sites, and then export the charts to a presentation.

Correct Answer: C

QUESTION 10

The students recently started using the film editing software.

You want to ensure that the students benefit as much as possible from the filmmaker's visit.

What should you do?

This item is part of a case study. To view the case study information, click on the Case Study button below.

- A. Schedule the filmmaker to present a one-hour lecture to the entire class.
- B. Schedule each student to individually ask the filmmaker questions.
- C. Have each student email you a list of questions before the visit.
- D. Have the students use a wiki to collaborate on a list of questions for the filmmaker.

Correct Answer: D

QUESTION 11

You are a teacher at a secondary school. You have 30 students in your class. Your classroom contains 10 laptop computers.

You plan a project for the students. You will provide the students with information in three different formats: audio recordings, photographs, and printed documents. The students must combine the information to

produce graphs and charts in a detailed report.

What is the best way to organize the project?

- A. Divide the project into a series of separate tasks.
Allocate each task to a different student.
Ask all of the students to create their own detailed report.
- B. Create a rotation schedule for the classroom computers.
Ask every student to use their turn on the computer to produce their own detailed report.
- C. Provide all of the information to all of the students.
Ask every student to explain how they will achieve the goals of the project.
- D. Divide the class into 10 groups.
Ask the groups to work collaboratively to assemble the detailed report.

Correct Answer: D

QUESTION 12

You are an environmental education teacher.

Your students are doing a collaborative project with students from another country using Information and Communication Technology (ICT).

You create an activity that requires your students to use presentation software to display pictures and videos of local birds. The students will then email the presentation to the foreign students.

You discover that the file size of the presentation exceeds the size limit set by your email provider.

You want to ensure that the students can send the presentation by email.

What should you advise the students to do?

- A. In the presentation, reduce the font sizes and deactivate the custom animations.
- B. Remove the pictures and the videos from the presentation.
- C. Convert the presentation file to a bitmap image.
- D. Compress the video files and the pictures before inserting them into the presentation.

Correct Answer: D
