- D. Configuring the use of a production group that outlines the group of accounts that are used for the financial postings associated with the production flow is not compulsory.

Answer: B

Explanation:

QUESTION NO: 5

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You have created a Lean Manufacturing production flow. You want to make sure that the materials are changed into products.

Which of the following actions should you take?

- A. You should consider creating a process activity.
- B. You should consider including activity relations in the production flow.
- C. You should consider creating a transfer activity.
- D. You should consider configuring the use of optional activities

Answer: A

Explanation:

QUESTION NO: 6

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are creating a Lean Manufacturing production flow. You then instruct a junior administrator, name Mia Hamm, to make sure that the production flow's Work in Process (WIP) accounts are properly specified.

What is the action that Mia Hamm should take?

- A. Mia Hamm should create a process activity.
- B. Mia Hamm should create a transfer activity.
- C. Mia Hamm should configure the production group element.
- D. Mia Hamm should configure the use of an optional activity

Answer: C

Explanation:

QUESTION NO: 7

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are creating a Lean Manufacturing production flow that must have multiple versions activated. You need to make sure that the production flow is suitably configured.

Which of the following actions should you take?

- A. You should consider making sure that the validity dates of the versions overlap.

- B. You should consider making sure that the validity dates of the versions do not overlap.
- C. You should consider making sure that the validity dates of the versions are exactly the same.
- D. You should only activate one version of the production flow at one time.

Answer: B

Explanation:

QUESTION NO: 8

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are configuring an activity of a Lean Manufacturing project flow to enable the option to register scrap. You now need to specify the scrap factor when doing a backflush.

Which of the following actions should you take?

- A. You should consider accessing the picking list lines.
- B. You should consider accessing the purchase order lines.
- C. You should consider accessing the BOM lines.
- D. You should consider accessing the calculation proposal lines.

Answer: C

Explanation:

QUESTION NO: 9

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are in the process of generating a Lean Manufacturing sales order. You have been instructed to make sure that the confirmed shipping date is automatically updated by using Delivery Date Capable to Promise (CTP).

Which of the following must be completed for this scenario to be successful?

- A. You should consider activating the configuration key for Master Planning, and configuring a dynamic master plan for the Master Planning parameters.
- B. You should consider accessing the product masters, and configuring a dynamic master plan for the Master Planning parameters.

- C. You should consider linking a Kanban rule to a production flow, and accessing the BOM lines.
- D. You should consider configuring a dynamic master plan for the Master Planning parameters, and linking a Kanban rule to a production flow.

Answer: A

Explanation:

QUESTION NO: 10

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You have been instructed to create event Kanban rules that allows for material to be restocked for a downstream process activity.

What action should you take?

- A. You should consider activating a Kanban line event.
- B. You should consider activating a purchase order line event.
- C. You should consider activating a picking list line event.
- D. You should consider activating a calculation proposal line event.

Answer: A

Explanation:

QUESTION NO: 11

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are in the process of generating a rule for an event Kanban. You have selected the Receive option of the Automatic printing setting.

What is the reason for this configuration?

- A. It allows for Kanbans to be printed automatically as soon as the first job of a kanban flow is registered as Completed.
- B. It allows for Kanbans to be printed automatically as soon as the first job of a kanban flow is registered as Prepared.
- C. It allows for Kanbans to be printed automatically as soon as the kanban is created.

D. It allows for Kanbans to be printed automatically as soon as the first job of a kanban flow is registered as Planned.

Answer: A

Explanation:

QUESTION NO: 12

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You have been instructed to generate an event Kanban for Kanban line events. You have been informed that you have to make use of the manual process to achieve your goal.

Which of the following actions should you take?

- A.** You should consider making use of the Kanban rules form.
- B.** You should consider making use of the Kanban calculation policies form.
- C.** You should consider making use of the Kanban quantity overview form.
- D.** You should consider making use of the Kanban flow selection form.

Answer: A

Explanation:

QUESTION NO: 13

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You have been asked to verify whether Kanbans are accessible via a sales order.

What is the action you should take?

- A.** You should consider accessing the InfoLog form.
- B.** You should consider accessing the Kanban quantity overview form.
- C.** You should consider accessing the Kanban flow selection form.
- D.** You should consider accessing the Kanban board for process jobs form.

Answer: D

Explanation:

QUESTION NO: 14

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are running a training exercise for ABC.com's Microsoft Dynamics AX 2012 users. You are currently discussing what connects a Kanban rule to the production flow version during the event Kanban creation process.

Which of the following is a suitable explanation?

- A. A Kanban rule is connected to the production flow version via the Intermediate plan activity setting.
- B. A Kanban rule is connected to the production flow version via the Primary plan activity setting.
- C. A Kanban rule is connected to the production flow version via the Last plan activity setting.
- D. A Kanban rule is connected to the production flow version via the Secondary plan activity setting.

Answer: C

Explanation:

QUESTION NO: 15

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

you have opened the Inventory transactions form, and selected a transaction from the Overview tab. You want to view information that pertains to the physical, ledger, financial, and settlement updates of the transaction you chose.

Which of the following actions should you take?

- A. You should consider accessing the Other tab.
- B. You should consider accessing the Reference tab.
- C. You should consider accessing the Ledger tab.
- D. You should consider accessing the Update tab.

Answer: D

Explanation:

QUESTION NO: 16

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are running a training exercise for ABC.com's Microsoft Dynamics AX 2012 users. You are currently discussing the use of the standard cost Inventory model group in Microsoft Dynamics AX 2012.

Which of the following is TRUE with regards to the standard cost Inventory model group? (Choose all that apply.)

- A. All products related to the production flow need to be assigned to the standard cost Inventory model group.
- B. Subcontracted services should be assigned to the standard cost Inventory model group.
- C. Standard cost is maintained per site.
- D. Standard cost is activated by As of hour.

Answer: A,C

Explanation:

QUESTION NO: 17

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are creating a Lean manufacturing production flow. You want to define the Work in Process (WIP) ledger accounts.

Which of the following action should you take?

- A. You should consider configuring the production group settings.
- B. You should consider configuring the financial dimension settings.
- C. You should consider configuring the description settings.
- D. You should consider configuring the Kanban quantity calculation policy p settings.

Answer: A

Explanation:

QUESTION NO: 18

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are facilitating a training exercise for potential ABC.com production planners. You are discussing scenarios in which scheduled Kanbans can be used.

Which of the following describe valid scenarios? (Choose all that apply.)

- A. When the creation of Kanbans are based on minimum stock or on min/max keys.
- B. When creating Kanbans for actual demand, where the average batch size is lower than the normal demand per sales order or picking list.
- C. When Kanbans are created proportionate to demand or supply forecast.
- D. When you do not have mixed mode environments.

Answer: A,C

Explanation:

QUESTION NO: 19

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You have accessed the supply schedule screen in preparation for generating a planned Kanban order.

Which of the following is essential for achieving your goal?

- A. Specifying the item number.
- B. Specifying the order number.
- C. Specifying the client number.
- D. Specifying the client name.

Answer: A

Explanation:

QUESTION NO: 20

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics

AX 2012 in their production environment.

You are in the process of creating an item allocation key for an aggregate forecast.

Which of the following options describe the reason for this?

- A.** To analyze current item allocation keys.
- B.** To view the posting and account information that is attached to the ledger account.
- C.** To provide the master scheduling calculations with specific item numbers.
- D.** To view account number references for both Procurement and sourcing, and Accounts receivable.

Answer: C

Explanation:

QUESTION NO: 21

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You are configuring a planned Kanban. You are instructed to make sure that the requirement date of the planned Kanban makes use of the futures date.

Which of the following actions should you take?

- A.** You should consider making sure that the futures message Desired date is earlier than or identical to the action message To date.
- B.** You should consider making sure that the futures message Desired date is later than or identical to the action message To date.
- C.** You should consider making sure that the futures message Desired date is not identical to the action message To date.
- D.** You should consider making sure that the futures message Desired date is not earlier than the action message To date.

Answer: A

Explanation:

QUESTION NO: 22

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics

AX 2012 in their production environment.

You have previously created a Kanban process job, and configured it to have a status of Planned.

You have been instructed to change the status of the job to Not planned.

Which of the following actions should you take?

- A. You should consider cancelling the job.
- B. You should consider navigating to the Kanban board for process jobs to change the status.
- C. You should consider marking the job as Complete, then recreate the job with the Not planned status.
- D. You should consider marking the job as Prepared before changing the status.

Answer: A

Explanation:

QUESTION NO: 23

You are employed as an administrator at ABC.com. ABC.com makes use of Microsoft Dynamics AX 2012 in their production environment.

You have configured the use of automated planning. You have reconfigured the value for the Maximum planned jobs setting.

Which of the following describes the reason for this?

- A. To control number of jobs that can be planned through automatic planning.
- B. So that you are alerted when stock has reached its minimum.
- C. So that you are alerted when stock has reached its maximum.
- D. It defines the constant number of active Kanbans related to a Kanban rule.

Answer: A

Explanation:
